AUSTRIA SURRENDERS; BEGS FOR PEACE

Will Accept Terms of United States—Is Tired of Fighting A Hopeless War

Another one of Germany's allies is out of the fight. Like Bulgaria, Austria has realized the utter hopelessness of her situation and has sued for peace, agreeing to accept the terms of President Wilson. The Dual Monarchy has long been tired of the struggle and has at last surrendered. This will release thousands of Italian and other allied soldiers for immediate service and brings the end of the war near at hand.

NOTICE TO PARENTS OF SOLDIERS OVERSEAS.

If you have a son overseas to whom you wish to send a Christmas parcel label which he has sent you, together with articles to be sent, to the Red Cross headquarters, in Hartford, sometime between the 1st and 10th of November. There you will be provided with a carton in which you can mail your parcel—taking care to keep the total weight under three pounds—leave the parcel there, where it will be inspected, wrapped and mailed.

If you can not bring your parcel to the Red Cross in person, send or mail it to E. E. Birkhead, postmaster, Hartford, Ky., together with parcel label, the address of soldier and twenty cents for postage. Such parcels will have the very careful attention of a committee selected for that purpose.

The Red Cross has been entrusted with this work, and hopes that every soldier from Ohio county, now overseas, will receive a Christmas gift from the loved ones at home, through the careful mailing of the committee appointed for this purpose. Though this committee is the only sure way to get a Christmas gift to your boy "over there."

GREAT CAMPAIGN ON.

The great United War Work Campaign for a fund of \$170,500,000, for relief work in France will begin November 11th. Mr. W. S. Tinsley and W. H. Coombs have been appointed publicity directors for Ohio County. For the first time in history all religious denominations and benevolent institutions have united in this great effort to care for the welfare of our boys overseas. It is being carried on by the Y. M. C. A., Y. W. C. A., Jewish Welfare Board, National Catholic War Council, War Camp Community Service and the Salvation Army.

If we are to be a victorious and successful belligerent we must first of all preserve the morale of our troops. There is nothing that contributes more to the promotion of good cheer and high spirits among a fighting army than the fact that every comfort is provided for them both in camp and on the firing line. This the Y. M. C. A. and the K. of C. does. Thousands of the secretaries are constantly under shell fire and they brave all the dangers that the soldier faces in order to help him when he needs it most. This work depends solely on the liberality of the American people for support and it is up to us to see that all wants are supplied. Every young man who is overseas or in camp is enthusiastic in his praise of the great institutions that are doing so much for their welfare both at home and abroad.

Kentucky's quota in this drive is \$1,770,800 and the third district, composed of Daviess, McLean, Ohio, Hancock and Breckenridge and Muhlenburg counties, is asked to raise \$61,940. Ohio County's quota is \$4,490.50. Let every patriotic citizen in the county do his and her best in this greatest of all war work drives.

WHERE ARE THEY?

The questionnaires addressed to the following were returned to the Local Board, unclaimed:
Lyn L. Hicks, McHenry.
Jno. W. Balze, Hartford, 2.
Louis Quisenberry, Owensboro.
M. O. Keeling, Louisville.
Talmage G. Cox, Horton.
Virgil Stevens, Hartford, 2.
Sylvester B. Smith, (col) Echols.

THE ROAD TAX.

Ohio County is now in the throes of bad roads and is practically helpless so far as getting out of this condition is concerned unless more money is raised for the purpose. Prices of labor and material has gone so high, and men and teams have become so scarce that it is imperative that the county should find a better and more effective way of working its roads than by the hand system, farmers' plows, goose neck hoes, etc.

The county must work its roads by taxation. It is only by taxation that the town people and other large property owners can be called to the county's assistance and contribute their share of the road fund. The people will vote on this question of a twenty cent road tax on November 5th, in Ohio County. The Fiscal Court has already made orders and promises to continue to make such orders as will guarantee that every road in the county will receive proper attention, repair and upkeep. This ought to be entirely satisfactory to the people in every community of Ohio County and should insure the success of the road tax proposition.

MRS. BYRON FOSTER DEAD.

Mrs. Connie Foster, wife of Mr. Byron Foster, died at her home at Covington Saturday morning of pneumonia superinduced by an attack of Spanish influenza. Mrs. Foster was formerly Miss Connie King, of Covington, before her marriage to Mr. Foster two years ago. Her husband is a son of Mr. Isaac Foster, of Hartford. He was at Atlanta Georgia, when notified of her illness and reached Covington before her death. She was buried at Covington yesterday evening at two o'clock. Mrs. Isaac Foster attended the funeral.

A SURPRISE WEDDING.

Quite a few of their many friends were surprised when Miss Gladys Foreman, of Narrows, and Mr. Randall Watterson, of this city were married at Narrows Sunday morning at 8 o'clock. Miss Foreman is the daughter of Mr. E. P. Foreman, of Narrows, and is an accomplished young lady. She is twenty years old. Mr. Watterson is the son of Mr. Jeff Watterson, formerly of Hartford but now residing in St. Louis, Mo. The groom is nineteen years of age.

The young couple left immediately for St. Louis where Mr. Watterson is engaged in Government work, and where they will make their future home. Mrs. Watterson is a sister of Mrs. I. F. Bennett, of Hartford. They have the best wishes of their many friends for a long happy and peaceful life together.

DEATHS AT ROSINE.

NEIGHBORHOOD NEWS

All About You and Your Neighbors

HORSE BRANCH.

Thinking that a few items from Horse Branch would be of interest we will give the readers a few notes from this place.

While the world war is going on and killing thousands of our boys in France, we have a disease spreading all over the country, the Spanish influenza, that is killing more men, women and children than the war in Europe. There are several cases around here but few deaths so far. It seems our physicians have the situation well in hand and have been very successful so far.

Mrs. Tiney Martin, of Olaton, died Saturday night, supposedly from "flu". Mr. John Bruner died a few days ago at Hopkinsville and was taken to Olaton and buried. He was a victim of the new disease. It is no respecter of persons but takes all alike.

Many people in this community are using as a preventative asafetida, sulphur, whiskey and quinine. Willie and Mack Bruner passed through enroute home from Olaton, where they attended the funeral of their mother, Mrs. Arthur Mitchell. Mr. J. A. Daniel, of Broadway, stopped off at Horse Branch while enroute to Olaton to visit his parents, Mr. and Mrs. G. W. Daniel. He reports many cases of influenza at Broadway.

Mr. J. B. Cannon has received a letter from his daughter, Mrs. Mercedes Duncan, of Albany, Ala., stating that she had just recovered from the influenza. Mrs. Duncan reports many cases of the malady in her city and many deaths.

The local editor of the Hartford Herald was a pleasant visitor with us Sunday. We rather think the editor has a special friend in or near Horse Branch from the many visits he makes here.

The farmers have been busy sowing wheat and stripping tobacco. The good prices they receive for their products makes a broad smile spread over their faces.

SUPPORT STANLEY, SUPPORT WILSON

Noted Baptist Divine Says There Is Only One Issue Before People.

A convincing letter, in support of Gov. A. O. Stanley's candidacy for the United States Senate, was written by the Rev. W. W. Landrum, one of Louisville's foremost ministers, to Dr. W. W. Richmond, of Clinton, Ky., one of the leading Baptist pastors of that section of the State.

Dr. Landrum took this action following the adoption of a resolution by the Western Baptist Association that the temperance question is still an issue in this political campaign, and that Baptists should vote only for the men committed to prohibition. Dr. Landrum himself is a prohibitionist, and on that account his position in favor of Gov. Stanley will carry great weight with the temperance forces. He hopes that in voting for Gov. Stanley for the Senate the Baptist will be voting as he prays.

The letter follows: October 11, 1918.

Dear Brother: Grace, mercy and peace be with thee.

In a Louisville morning paper, I read today a report of a certain resolution, said to have been passed by the Western Baptist Association. The title of the paper's report is, "Vote As You Pray."

All Baptists should vote as they pray. Just now the burden of our prayer should be that the world may be made safe for democracy. Lloyd George, Premier of Great Britain, as you know, the most distinguished Baptist in the world, wrote Mr. Coleman, president of the Northern Baptist Convention: "Tell the Baptist brotherhood that we are fighting for Baptist principles."

Baptist principles are democratic principles. Democratic principles are today in this country in the hands of the Democratic party. A Democratic President is the mouth-piece of that party. His word will close the war and determine matters after the war. Behind him every lover of democratic principles should stand today.

I am a prohibitionist, but prohibition is res adjudicata. The Kentucky Legislature has passed the prohibition amendment. Congress has voted us a dry nation. National prohibition is as dead an issue as slavery or free silver.

The one great issue is the winning of the war and the settlement of the momentous questions arising after the war. Those questions must be settled by the party that always sustains the President.

I believe our Brother Gatliff voted as he prayed when he voted to nominate Gov. Stanley for Senator. I believe Senator Frost spoke as he prayed when he introduced Gov. Stanley along with Senator Beckham. I believe the Hon. H. V. McClesney votes as he prays when he supports Gov. Stanley for Senator. I know of no more conscientious Baptists in Kentucky, and there are others.

With malice towards none and with charity for all, insisting as we do on Baptist individualism and conscientiousness, I am willing to place myself among those of our brotherhood who believe that this is the time for all men to be sure they are in perfect accord with our President. Gov. Stanley is such a man and the President can rely on him during and after the war.

With all good wishes and high regards, fraternally yours for democratic principles in both church and State,

W. W. LANDRUM.
Dr. W. W. Richmond,
Clinton, Ky.—Louisville Post.

A DOLLAR AN HOUR.

Shall Industrial Army Have It When
Fighters Get \$1 a Day?

In time of war we should have two armies, the fighting army and the industrial army. Each should wear a uniform and be under absolute government control. The wages, the hours of labor, the rules of living, all should be determined by the Government.

Every man in the United States owes his life to the country. The manner in which his life is used, whether in the front line in France or in the essential industry here, is none of his concern. Those in supreme authority alone are best able to determine how that life should be used to the best advantage.

In the fighting army a man gets his maintenance and \$31 a month. As to hours of labor, a friend of mine in the old Sixty-ninth has just written home that he had been fighting two weeks, almost without rest. Why should the fighting army have less pay, more hours of labor and less privileges than the industrial army in essential industries?

A soldier overstates his leave and becomes technically a deserter. If caught and convicted he gets from one to twenty years in a military prison. Why should a worker in an essential industry be treated differently?

How will you explain to the fighting army when it returns the special privilege of the industrial army?

I know an enlisted man who worked eight hours a day and made \$15.00 a year in his business. He now gets about \$60 a month and is liable to work 24 hours a day. What would happen to him if he struck, either for shorter hours or for more pay? If this strike happened at the front he would be introduced to a firing party.

Why should a worker in an essential industry, a shipyard or a munition factory be treated differently?

A friend of mine who is personal officer in a camp where many of the men are expert mechanics tells me that when he signs the payrolls he notices that many of the men only get \$8.65 a month. The balance goes for insurance, liberty bonds and to dependents.

What will these men think of shipyard men, 58 per cent of whom are of foreign birth, demanding a dollar an hour and double pay for overtime?

If men in essential industries are to be exempted from the draft let them at least be enlisted in an industrial army. Put a uniform on them, have a Government board fix their hours of labor and their wages and give them no privileges over the men who night and day are facing the machine guns, gas bombs and cannon of the German army.

Washington.—Draft calls for men who have passed their thirty-seventh birth anniversaries are instructed to begin about March 1. Plans for bringing the older class of new registrants into camp have not been completed, but the approximate date of the first call was disclosed here by publication of testimony by Provost Marshal General Crowder before the House Military Committee.

In all, General Crowder told the committee, 2,399,000 newly registered men between 18 and 45 will be called before July 1, and of that number more than two million will be physically fit fighting men. The calls for general service will be divided as follows:

October, 345,000; November, 204,000; December, 197,500; January, 147,500; February, 244,000; March, April, May and June 344,000 each month. These men will supply both the army and the navy and marine corps.

In addition 20,000 men for limited service will be called each month.

TO ALL FARMERS.

Due to your compliance, by our Government to produce all the poultry possible, wherever it is practicable, we find a very large crop of chickens in the Central West, South, North and Northeast, with a shortage of labor, shortage of cars for transportation, shortage of freezing space that is being used for freezing meats to be shipped to our soldiers, and Allies abroad, and in order to market this poultry in a way to prevent waste of some of the product, and in order to help out the transportation situation to carry out the following suggestions;

1st Market only the well matured birds, leaving the others on the farms to grow and increase the amount of poultry flesh.

2nd From now until December 1st the largest percentage of old hens are moulting, are unattractive in appearance, weigh less and you should market only those birds that are full feathered—holding the balance until after December 1st.

3rd Whenever practicable hold as many birds as possible on the farm until after January 1st in order to relieve the freezer situation.

4th Keep all pullets for eggs production this winter and next spring.

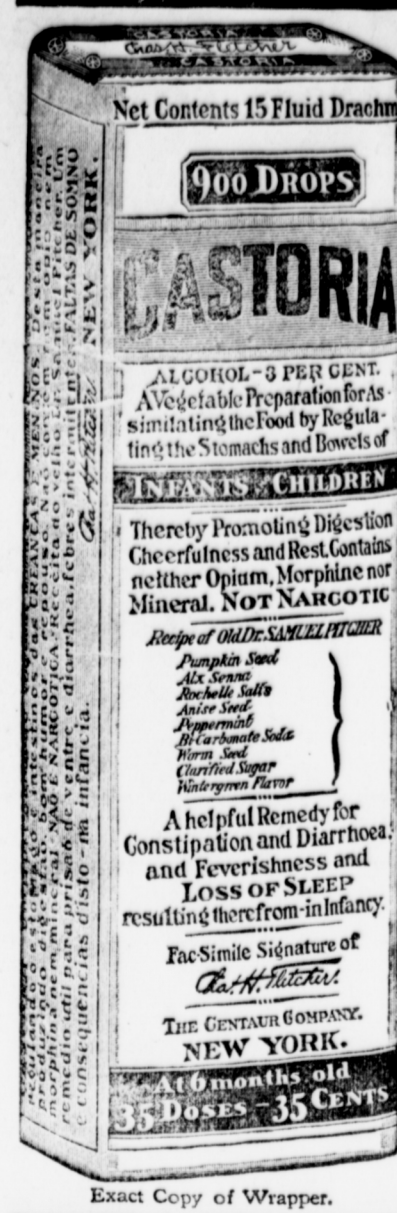

5th East of the Mississippi River market turkeys that are intended for Thanksgiving from November 10th to November 15th, and West of the Mississippi from November 8th to November 14th, holding the balance of turkeys until December 7th, as usually a large percentage of turkeys reaching the market to late for Thanksgiving must be placed in cool storage room for which this year is unavailable for reasons above stated.

The peace dove is certainly awing,
but it seems she cannot find a place
to light.

If Ohio County ever expects to
have good roads she should begin at
once by voting for the twenty cent
road tax next Tuesday. In the first
place this eliminates the old anti-

quated system of working the roads
by hand. Any farmer can see that
this is a saving of more than the
twenty per cent, because the two or
three days work, with hands so
scarce, would cost more than the tax.
Then the provision that the amount
collected in each district shall be
spent in each district makes it dou-
bly sure that every road in the county
will receive attention. Vote for the
twenty cent tax next Tuesday.

If flat feet were a total disability
where would our negro soldiers

We have never yet heard of a fel-
low claiming exemption because of
a dependent mother-in-law.

The Kaiser was going to eat last
Christmas dinner in Paris; it looks
like he would eat this one in jail.

The Yanks with their gas-masks
and other camouflaging accoutre-
ment are getting ready to stage a big
Halloween party for the Germans.

Stand by the President and the
boys "Over There." A vote for the
administration's friends is a vote
for a speedy and successful termina-
tion of the war.

The names of the Democratic
candidates will be on the ballot this
time, and the lead pencils may be
left at home. Let every one vote
while voting is easy.

There isn't a voter in this County
who doesn't know that Representa-
tive Ben Johnson has and always
will vote and work in the interest of
the people. It is your duty to your-
self to vote in favor of keeping him
in Congress.

Representative Ben Johnson has
stood by the President and helped in
the successful prosecution of the
war. Don't swap horses while you
are crossing the stream. Whatever
your politics may be, vote for our
War Congressman, Ben Johnson.

When one faithfully represents
you, should you not commend him?
When a Congressman loyally and
faithfully represents his people,
should they not award him by again
voting for him? This is the case of
Representative Ben Johnson.

We cannot agree with our esteem-
ed contemporary that our write-up
of Dr. Bruner's war record will make
votes for him. Instead of sending
such a good soldier to the Senator-
ial halls the voters of Kentucky will
favor sending him to the army where
he is most needed just at present.

The Hartford Republican took a
long incoherent and ambiguous
shot at The Herald last week, with
much assumption and no facts.
Our neighbors seems to be somewhat
displeased over the excellent press
notice which we gave Dr. Bruner
free of charge. We suspect this is
about the most space the Doctor ever
commanded even in the country press.

We have repeatedly called our
readers' attention to the fact that
their paper would be stopped on
November 1st, if not paid up.
Many have responded with remitt-
ances but there are many who will
wait till the eleventh hour. If you
do not respond immediately we will
take it as an evidence that you do
not want the paper and so, act ac-
cordingly.

The wise and the cautious can
see in Germany's proffered hand of
peace the deadly gun that blows the
unsuspecting victim to shreds. She
has devised many schemes to

camouflage her devilry and this of-
fer of a conditional peace is one of
the most insidious. The only satis-
factory peace is one with conditions
so binding that it will be impossible
for Germany to ever break them.
This will come about only after her
complete defeat.

The letter by Mr. Perry Crowder,
published in this issue, brings us
face to face with a great issue that
is going to confront the American
people after the war, and that is
the question of foreign immigration.
We once heard a speaker
denouncing the Italian and other
peoples of Southern Europe and
urging that we forbid them coming
here, and at the same time praising
the Germans and bidding them wel-
come. That was before the war.
Since then the Italians have proven
loyal citizens and the Germans
snakes in the grass. But what we
wish to emphasize is the fact after
the war thousands of foreigners will
pour into the United States and
crowd aside our home labor, unless
adequate legislation makes it im-
possible for them to take up their
residence without conforming to
tests rigid enough to debar all but
the best fitted for American citizen-
ship. When crowded overfull, the
great melting pot cannot melt nor
can the American nation assimilate
indigestible products of a foreign
climate. The Reconstruction con-
gress should deal strongly with the
immigration problem!

We trust that the friends of Ben
Johnson will see that a full vote is
polled for him next Tuesday. The
pendency of the anti-profitteering
bill and other matters of vital inter-
est to the people of this district pre-
vented Mr. Johnson from making a
personal canvass, but the voters
know the character of their official
and the fights he is making for legis-
lation to protect those who are in
Washington engaged in war work.
In his fight to curb the merciless
landlords in the Capital City Mr.
Johnson cites numerous cases of
outrageous treatment of these ten-
ants by the gouging landlords who
take advantage of congested condi-
tions to coerce payment of fabulous
rentals. For example, one girl from
Kentucky was paying \$20.00 per
month for a room and was recently
notified that she must pay \$117.50
per month for the same room or
move. What do you think of that?
Actually demanding more for room
rent than the poor girl receives as
salary. Will any one censure Mr.
Johnson for staying on the job and
fighting with all the ability and en-
ergy he can command to remedy such
conditions and prevent further out-
rages by the greedy, selfish and un-
patriotic real estate profiteers. These
and other fights for just
measures have been made by Mr.
Johnson in the face of all sorts of
political and personal threats from
the moneyed interests in Washing-
ton and certainly the people of Ohio
County should show their apprecia-
tion by giving him the largest vote
he has ever received.

THE PRESIDENT'S REPLY.

Recently certain interests have
tried to make it appear that Presi-
dent Wilson was not whole hearted-
ly for Governor Stanley for United
States Senator. Rev. E. L. Miley,
pastor of the First Christian Church
of Hickman, Ky., addressed a letter
to the President on this subject. To
this communication, on October 23,
1918, the President replied:
"The Rev. E. L. Miley, First Chris-
tian Church, Hickman, Ky.:
"I earnestly desire the election of
Governor Stanley to the United
States Senate. I supposed that

my whole hearted support of him
was well known throughout Ken-
tucky."

"WOODROW WILSON."

In the time of war, we should not
hesitate to place at the disposal of
the President the men he asks.
Stanley is one of them. Let us not
hesitate to vote, as the President has
requested.

THEN AND NOW.

If history records correctly and
surely it chronicles aright—it was in
1898 that Colonel Roosevelt was a
candidate for Governor of New York.
The Spanish-American War was on
and Roosevelt, in urging the elec-
tion of a Republican Congress, said:
"Remember that whether you will
or not, your votes this year will be
viewed by the nations of Europe
from one standpoint only. They
will draw no fine distinctions. A
refusal to sustain the President this
year will, in their eyes, be read as a
refusal to sustain the war and to
sustain the efforts of our peace com-
mission to secure the fruits of war.
Such a refusal may not inconceiv-
ably bring about a rupture of the
peace negotiations. It will give
heart to our defeated antagonists;
it will make possible the interfer-
ence of those doubtful neutral na-
tions, who in this struggle have
wished us ill."

Accordingly said former President
Benjamin Harrison: "If the word
goes forth that the people are stand-
ing solidly behind the President, the
task of the peace commissioners will
be easy. But if there is a break in
the ranks—if the Democratic score
a telling victory, if Democrats sena-
tors, congressmen and governors
are elected—Spain will see a gleam
of hope, she will take fresh hope,
war, may be necessary to secure us
what we have already won."
If it was necessary to stand be-
hind the President with a Congress
and Senate of his own party in the
war with Spain is it not more nec-
essary now, in a war ten times as
great?

IMPORTANT ELECTION.

At this time it is natural that our
thoughts should turn to the "flu"
epidemic, to the war and to ques-
tions of peace and peace terms; but
we should not overlook that we are
approaching a very important elec-
tion. Within the not distant fu-
ture, there will be presented to the
Senate of the United States, for its
approval, a treaty of peace between
Germany and the United States.
This treaty will have been prepared
by that great leader, Woodrow Wil-
son. If Governor Stanley is then
our Senator, no one doubts that he
will vote to uphold the President.
And upon other war questions and
also upon domestic questions, many
of which will arise after the war is
over, no one doubts that Governor
Stanley will hold up the hands of
the President. This being true, the
voters of this and other counties of
the State should lay aside minor
differences and, looking to the larg-
er questions which will come before
the next Senate, vote for our Dem-
ocratic nominee.

In the Congressional race, there
can hardly be two opinions as to
the comparative fitness of the two
candidates. Mr. Johnson, our dem-
ocratic nominee, has stood by the
President and for the successful
prosecution of the war. He is an
experienced legislator, who has
faithfully represented the people of
the Fourth District. Upon his re-
cord, he is entitled to the support of
the voters of this District, regard-
less of the party affiliations. Why
anyone, in these critical times should
vote against him, we cannot under-

stand. Don't swap horses while we
are crossing the stream.—Marion
Falcon.

MINISTERIAL GREETINGS.

Hartford, Ky., 10-29-18.
To the public in general and to
the Methodists of the Hartford
Church in particular Greeting: In
these times of peril and privation,
when on account of the epidemic
which is raging in our community
we are deprived of our regular Sab-
bath worship and the social inter-
course that goes with it and when
there is so much of suffering and
sorrow all around us it becomes us
to be very thoughtful of the inter-
ests of each other and in every way
by word and deed comfort those who
are in distress. I have thought
good therefore to call upon each
and all of you to supply your lack of
public devotion with a private
personal approach to the Throne of
Divine grace, asking the Father's
blessing and that his healing hand
may be laid on our land and coun-
try and that so far as it is consist-
ent with his will and the best inter-
ests of those who trust in him to
shield them from the hand of the
enemy and the destroyer. And in
the times of their deep sorrow and
privation should they come to grant
them grace for their time and need.
Praying earnestly for the health of
you and yours both in body and soul
I beg to remain

Yours truly,
A. D. LITCHFIELD.

The good rain was a welcome vis-
itor to this neighborhood.

Lots of Spanish influenza here,
but no deaths yet. C. C. King has
a very severe case.

James F. Magan and family have
the "flu".

Lots of stripping tobacco getting
ready for early market.

Ed Duke and family have the in-
fluenza.

Crossing on the big bridge here
has been prohibited for a few days
as they are repairing it.

Otis and Jess Cook who have had
the "flu" are out again.

it.

GREAT NEED FOR NURSES.

Refusal of the more populous
cities and towns to allow their nurs-
es to go outside their own communi-
ties to nurse influenza cases has
created a serious problem for the
Red Cross Department of Nursing.
It was stated Saturday by James L.
Fieser, chairman of the Lake Divi-
sion Red Cross Committee on in-
fluenza.

"The need for nurses in smaller
communities, particularly in the
mining regions of Kentucky and Ohio
is nothing short of desperate," Mr.
Fieser said.

"The public, although alarmed over
the influenza situation, apparently
has not fully appreciated that the
epidemic has reached the propor-
tions of a national disaster and that
added nursing resources will go a
long way toward keeping down the
death rolls."

Mr. Fieser also pointed out that
a deplorable lack of nurses in the
coal mining regions is causing the
Fuel Administration a great deal of
alarm, as a number of mines are
seriously crippled due to the large
number of influenza cases and sub-
sequent pneumonia deaths.

"The more populous communi-
ties which depend on the mining
population for their coal, should see
the immediate necessity of giving up
a few nurses to help the miners,"
says Mr. Fieser. "We should help
the nurses and their employers to
realize that influenza work is a real
war service."

Nurses, male and practical, as
well as graduates, should report at
once to their local Red Cross chap-
ter and should not leave their re-
spective communities unless authori-
zed to do so.

The Division Committee on In-
fluenza asks the public:

1. To put automobiles at the
service of the Red Cross in order that
they can minister to a larger num-
ber of cases.

2. To give nurses all the help
they can and to leave to them only
the direction of caring for influenza.

3. To refuse to permit one pa-
tient or even several to absorb all
the time of a skilled nurse.

4. To make full use of all strong
women who have had even the brief-
est nursing course or experience.

SAVE FALL PIGS IS CRY AS MORE CORN LOOMS UP.

The fall pigs are going to be worth more money this year than ever before, and everything should be done from a financial, as well as a patriotic, standpoint to raise as many as possible to maturity. A pig now is worth twice as much as it was when pork was selling for nine cents. The feed given the brood sow will have a direct bearing upon the pigs saved. A good ration for the brood sow in dry lot is: Corn, ten parts; shorts, five parts; bran, three parts; oil meal or tankage, one part. Ear corn may be fed, and the remainder of the ration given in a thin slop twice a day.

Do not let the sow get too fat, Give her plenty of exercise while she is with pig. Watch for signs of farrowing and plan to give undivided attention to the sow at this time. If one pig is saved which would otherwise be lost it is time well spent. See that the pigs do not become chilled and that they all find teats. Be sure that the sow is properly housed; that she has sufficient ventilation and sunshine and good, clean bedding. Bed lightly at farrowing time. A guard rail about six inches from the floor around the sides of the house so the pigs can get under it often keeps the sow from laying on them.

DON'T THROW AWAY Your Old Tires

Conserve and Help Lick the Kaiser

THIS is to show you why "DRI-KURE RETREDING" with a 3,500-mile guarantee will save you one-half to two-thirds on your tire bill.

"Dri-Kure Retreding" is a proven factory method—not the old "kettle" process that soaks the carcass of your tire with steam, that, when cold, turns to water and rots the fabric.

"Dri-Kure" method is operated by DRY HEAT under 3,000 pounds pressure. The mere fact that racing drivers use tires cured by the Dri-Kure Process is proof that we build our treads for service.

Tom Alley, Chicago racing driver, averaged 104 miles per hour for 100 miles at Chicago Speedway, June 22, 1918, without a tire change and all on Retreded Tires. There's a reason.

Now Compare the Cost and Saving

Compare the cost of the tire you have on your car now and the cost of Dri-Kure Retreding, the same size. The chart of prices will show you the cost of retreding.

Now Figure the Saving for Yourself and remember that every tire we retread is guaranteed for 3,500 miles. Is this saving worth while? Think it over. Who wouldn't want to save from one-half to one-third of their tire bills?

We will gladly show you the complete detail and extend to you a personal invitation to come in for a chat. We will prove to you the success of this process to your own satisfaction.

arouse enthusiasm throughout the community and to make sure that public approval is accorded the miners who do their full share in the efforts to produce a record output of coal.

Daily talks on coal production, emphasizing the need for more and more fuel as an aid to the winning of the war, are being made by teachers in more than 1600 public, parochial and private schools in the county. Every pupil has received a series of lessons on the importance of mining more coal. It is impressed upon the children that an idle miner today may mean the loss of an American soldier's life later. The soldier must have cartridges and shells and to manufacture cartridges and shells there must be more coal.

Thousands of children have appealed to their fathers and their brothers to work full time so that the army abroad may have the fullest measure of support. The daily talks in the schools will be continued throughout the year.

RED CROSS NEWS.

For the second time, the espionage act has been invoked to obtain protection for the Red Cross. William E. Martin was convicted in the federal court at Greenville (Tenn.) on a charge of slandering the Red Cross.

Articles made by the allied prisoners interned in Switzerland have had such a large sale, that a Red Cross bureau will be organized immediately to take charge of such sale in this country. The annual output now amounts to about \$45,000 in value.

What would you do if you were a soldier overseas and heard that a bank at home had called in your loan, and taken the farm from your wife? One soldier took such a di culty to the Red Cross representative in his unit, and through the Home Service Bureau, the confiscated property was restored.

"Camouflage babies," soldiers call the children at the day nursery just established by the American Red Cross at the American army camouflage factory in France. While the 900 women workers are busy at the plant, their babies stare wide-eyed at the Mother Goose paintings with which the camouflage artists have covered the doors, ceilings and walls of the nursery.

When the American Red Cross workers in London received an urgent appeal for 200,000 first-aid packages, the committee in charge replied, "We will deliver first-aid packages as requested at rate of 15,000 a week," beginning at once." The order had to be filled without interfering with the regular hospital supply output of the shop, and each package was to contain twelve articles, but the workshop exceeded its promise the first week, and a few weeks later, the entire order was in the hands of the army authorities.

KENTUCKY SOLON SAVES U. S. MORE THAN \$220,000.

Washington.—Representatives Ben Johnson has procured the passage of legislation by which the Treasury of the United States is \$222,740.50 better off. More than thirty years ago the United States advanced that amount of money on schools and jail construction contract in the District of Columbia. But in the settlement after the work was completed the advance payment which had been made by the United States was over-loaned. In searching old records Mr. Johnson came across the item and continued his efforts until the money has finally been collected and paid into the Treasury.

The amount of money collected by Mr. Johnson on old debts of this sort during the past five years aggregates \$2,430,949.50.

SOME GOOD ADVICE.

Strengthened by Hartford Experiences

Kidney disease is too dangerous to neglect. At the first sign of backache, headache, dizziness, or urinary disorders, you should give the weakened kidneys prompt attention. Eat little meat, take things easier and use a reliable kidney tonic. There's no other kidney medicine so well recommended as Doan's Kidney Pills. Hartford people rely on them. Here's one of the many statements from Hartford people.

E. L. Ashley, farmer, Griffin St., Hartford, says: "I consider Doan's Kidney Pills a reliable kidney medicine. I suffered with backache and too frequent action of my kidneys. This medicine helped my kidneys, relieved my back and made me feel better generally."

SPANISH INFLUENZA

Resembles Old Fashioned Grip

The symptoms of Spanish Influenza are very similar to old fashioned grip—pains throughout the body, extreme dizziness, sleepiness, chills, high fever, headache, disturbed digestion with running at the nose and eyes and excessive spitting, showing an inflammation and congestion of the mucous linings.

Manifested by Catarrhal Condition

With the first symptoms of Influenza, it is well to consult your family physician at once. It is not the disease itself that is to be feared so much as it is the complications which may follow. To ward off Spanish Influenza or as an aid to returning health after an attack, nothing is any better than Dr. Hartman's World Famous Peruna.

For Catarrh of Every Description Take PE-RU-NA

The well known and direct action of Peruna in restoring and maintaining a healthy condition of the mucous membranes throughout the body makes it the greatest disease preventing and health restoring remedy known to science.

For forty-five years Peruna has retained its title as a reliable safe-guard to the health of the American family.

GERMAN EFFICIENCY.

There are several rivers in Belgium. The Vesdre, the Ambleve, the Ourthe, and the Meuse are in the eastern part; while the Senne, the Nethe, the Dyle, and the Demer flow through the western part. Over most of the rivers the Germans were obliged to pass on their way through Belgium in August, 1914.

Fearful that the Belgians would burn the bridges, what do you suppose those German officials did? Let me tell you. They think it showed great efficiency and foresight! I would like to know what you think about it? There were many of these cases; but I will give only a single illustration.

One of the most beautiful little towns in eastern Belgium was Fecber. For years it had been a happy farming community. Everyone had his own little home; there were no rich and no poor. The old and

young lived, worked, and played together.

The German officers arrived in Fecber on August 5th, 1914. Immediately they gathered up all the people, about 1,000, and drove them into an old stone church without food or water. They then bolted the church doors, placed sentinels as guards, while they and their soldiers slept in the homes and ate the food of these people whom they had locked in the church.

Between the German army and the city of Liege, which was the next city that the German officials wanted to plunder, is the River Meuse. Over this river is a bridge across which the German army was to march. It is the "efficient" way that the German government protected such bridges that I want to tell about.

On the next morning, August 6th, the front door of the old church was opened and one man was let out. Immediately he was shot "as an ex-

ample" to show those innocent people what would happen to all if any attempted to escape. Then 411 of these people were driven to the bridge and on August 7th were tied onto both sides of it for four days and nights, while the German army marched across. To every post men and women were fastened. They were tied to the girders and the piers. For one hundred hours these kindly people were held there without food, shelter, or relief of any kind.

Here were these people suffering from hunger, thirst, and filth, who a week before were happily working their farms, with no more thought of being interfered with than we have today. There they shivered by night and fainted by day. If anyone complained, he was shot, although the dead body would not be removed. It would be left tied to a helpless neighbor "as an example of German efficiency."

Finally on the morning of August 12th, when the last of the German army had entered Liege, the ropes were cut and these poor people were left to struggle home, only to find their houses burned and their flocks stolen.

This is the kind of government which we are fighting. This is the kind of treatment that we would get were the French and English not standing between us and the Germans. Isn't it up to us to forget our local differences and quickly cooperate? If the boys in France are willing to stand the brunt of the fighting, certainly we ought to be anxious and glad to maye our output of ships and the supplies the biggest, the best, and the cheapest ever.

AIDS NATIONAL DAIRY SHOW

Federal Government Is Advancing Exhibition's Interests.

STATE OF OHIO ALSO ASSISTS

Uncle Sam Decides to Make the Big Show, to Be Held at Columbus Oct. 10-19, the Medium Through Which Its Message to the Country on Subject of Dairying Shall Be Given.

Columbus, Ohio.—Uncle Sam, through his Food Administration, having advised the public to "use more milk" has felt an obligation to support and advance in every way possible the National Dairy Show which will be held this year in this state in this city, October 10-19.

Uncle Sam has expressed his approval by appropriating more than \$25,000 and by assigning a number of his leading experts to take charge of the educational work at the show.

The State of Ohio through its Board of Agriculture, and the city through its Chamber of Commerce, are combining with the citizenship generally to make a success of the event eclipsing any previous record.

There was a time when the advisability of this year's show was questioned, but in the council of those who have the interests of the dairy cow most at heart it was declared that failure this year of all years would put the dairymen of the country in the position of being slackers. The Dairy Show is not organized for profit, and the balance on the wrong side of the ledger means that a few public-spirited individuals will have to make up the deficit.

It was at this juncture that Uncle Sam, having decreed that the dairy cow shall not perish from the earth—or at least the United States, for she is perishing all over Europe—decided to make the show the medium through which its message to the country on the subject of dairying should be given. To that end, H. E. Van Norman, dean of the College of Agriculture, University of California, who is on leave from his school, serving the government, was put in charge of the government's interest.

The cardinal point in the government's contention is that the dairy herds of this country must not suffer deterioration, for from American and Canadian herds must all the herds of Europe be replenished after the war. Therefore the breeder must be interested. He will find among the thousands of cattle, the four reigning queens of the recognized dairy breeds. The four champion cows of America have all made advance reservations. They are: Minerva Beets, Holstein, owned by R. E. Haeger, Algonquin, Ill.; Oxford Majesty Gypsy, Jersey, owned by L. V. Walkley, Southington, Conn.; Sherwalton Meia Queen, Ayrshire, owned by N. J. Chisholm, of Westchester, New York, and Princess Bergere, Guernsey, owned by W. W. Marsh, of Waterloo, Ia.

The sterner sex matches this list, blue blood for blue blood. The grand champion bulls of these strains will be at Columbus. They are: Ladysmith Cherub, Guernsey, owned by D. D. Tenney, St. Paul, Minn.; Cavalier Lord, Ayrshire, owned by A. Seitz, Waukesha, Wis.; Oak DeKol, Holstein, Iowa Farms, Davenport, Ia., and Gamboe Veelum Majesty, Jersey, owned by M. D. Munn, St. Paul. While prices on such cattle depend somewhat on circumstances, conserva-

He Is Uncle Sam's Man at the Big Dairy Show

H. E. VAN NORMAN,

Dean of the College of Agriculture of the University of California, who is on leave of absence for one year from his school to assist the government in the dissemination of information regarding the dairy industry.

The government, in turn, has loaned him to the National Dairy Show to be held at Columbus, O., Oct. 10-19, where he will have charge of government exhibits, representing thousands of dollars, and of the general campaign of education which the government will offer to the people at that time.

Five cattle men say that a quarter of a million dollars would not touch these eight animals.

Judges for the several recognized breeds and the days of judging are: Ayrshires, Wm. Hunter, Ontario, and Prof. H. H. Kildee, Ames, Ia., October 14; Guernseys, Chas. L. Hill, Rosedale, Wis., Oct. 16; Jerseys and Brown Swisses, H. G. Van Pelt, Waterloo, Ia.; Brown Swisses, Oct. 14; Jerseys, Oct. 15; Holsteins, W. S. Mescrip, Lake Elmo, Minn., Oct. 17.

MILK ESSENTIAL TO LIFE OF CHILD

"Hundreds of thousands of mothers and fathers have yet to learn the undisputed fact of science that nature locks up in milk an essential something necessary to the fullest development of child life," says H. E. Van Norman, dean of the College of Agriculture, of the University of California, who is delegated by the federal government to have charge of the National Dairy Show at the National Dairy Exposition at the National Dairy Show to be held in Columbus, Ohio, October 10-19.

"The cow," he points out, "foster mother of half the human race, is so-called because half the babies born to man must depend upon her milk before they are two months old, and all children should, through their early life, have a liberal portion of milk and butter if they are to develop into strong, virile, prepotent men and women. The uses of these dairy products, the saving of these young lives, will be fascinatingly presented to the public by actual demonstrations in the use and preparation of dairy products, by the Children's Health Conference conducted by the National Children's Bureau, where parents may bring their children and have them examined by government experts where they may receive helpful suggestions for improvement in the development of their children."

UNITED STATES COMMANDEERS THE SERVICES OF WOMEN EXPERTS ON MILK

MISS EMMA CONLEY,
Formerly Dean of Home Economics of the University of Wisconsin.

MISS JESSIE M. HOOVER,
Formerly Dean of Home Economics, University of Idaho.

THE government interests in the dissemination of scientifically correct information regarding milk is such that it has borrowed the services of a number of the country's best informed women whose business it has been to teach this subject in the big universities.

The two here shown are on leaves of absence and working under the States Relations Service Committee

of the Department of Agriculture. They have been designated to have charge of the government's demonstrations at the National Dairy Show to be held at Columbus, O., Oct. 10-19. They will have under them a corps of experts, lecturers and workers, whose business it will be to explain the unrealized possibilities of milk in the human diet and particularly its imperative necessity as a food for children.

Catarhal Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure catarrhal deafness, and that is by a constitutional remedy. Catarrhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result. Unless the inflammation can be reduced and this tube restored to its normal condition, hearing will be destroyed forever. Many cases of deafness are caused by catarrh, which is an inflamed condition of the mucous surfaces. Hall's Catarrh Medicine acts thru the blood on the mucous surfaces of the system.

We will give One Hundred Dollars for any case of Catarrhal Deafness that cannot be cured by Hall's Catarrh Medicine. Circulars free. All Druggists, 75c.

Wilson Wants Stanley

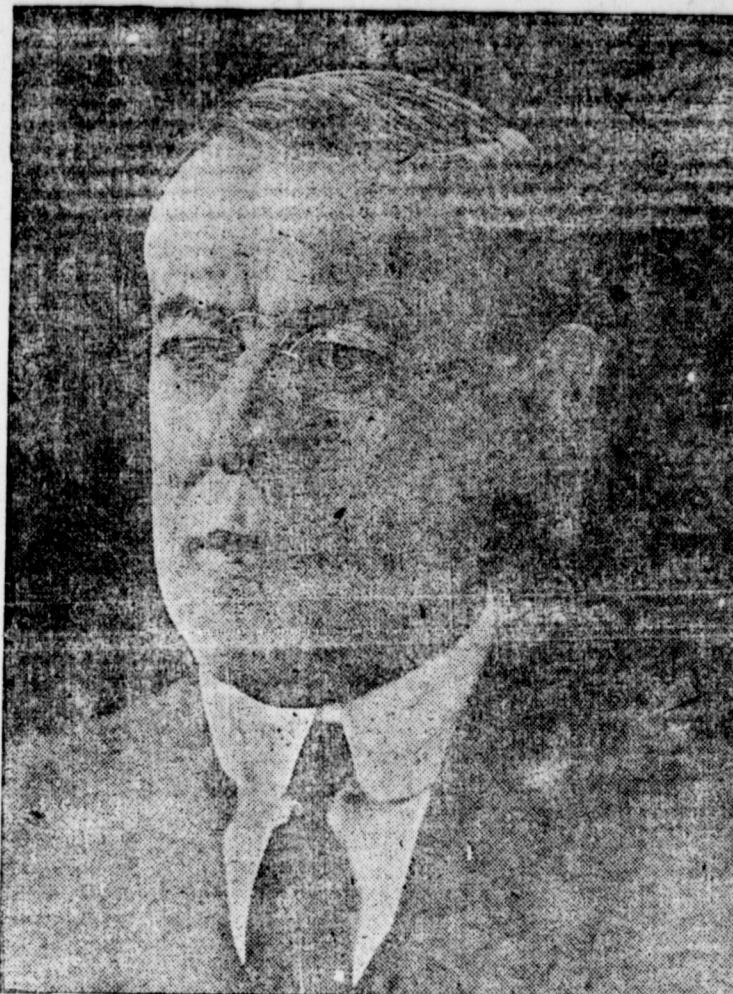

And a Democratic Congress

ELECT MEN WHO WILL FIGHT THE KAISER; NOT WILSON—
SUPPORTERS, NOT CRITICS

STANLEY STANDS WITH WILSON
IN PEACE AS WELL AS IN WAR

EMINENT MINISTERS INDORSE
STANLEY FOR SENATOR

All Other Issues Must Give Way, Says Dr. W.
W. Landrum, One of Louisville's Fore-
most Temperance Advocates.

*"I earnestly desire the election
of Governor Stanley to the
United States Senate."*

WOODROW WILSON

WILSON WANTS STANLEY TO
HELP HIM WIN THE WAR

Wilson Wants a Democratic Senate
To Conclude An Early and
Victorious Peace.

Wilson Wants a Democratic Congress To
Aid Him In Bringing the
Boys Back Home.

Supported by a Senate in thorough accord with his wise policies and lofty ideas, Woodrow Wilson will speedily bring peace and order to a distracted world. This glorious day will be delayed if he and his party are repudiated at the polls and Lodge and Penrose and their faithful follower, Dr. Bruner, are permitted to heckle and harass him. Every day's unnecessary continuance of this struggle means the loss of precious lives, means weary hours of waiting for the return of our loved ones.

Support Wilson, his party and his followers for the sake of our brave boys abroad; indorse him for the sake of their loved ones at home. Gladden the great heart of the first citizen of the world by a vote of confidence on November 5.

Stanley Indorsed By Labor

It is my most earnest wish that Mr. Stanley may continue to serve all of the people of the nation, and particularly the wage earners as an official representative in public office.
Fraternally yours,
SAMUEL GOMPERS,
President American Federation of Labor.

October 11, 1918.

Dear Brother:

Grace, mercy and peace be with thee.

In a Louisville morning paper I read to-day a report of a certain resolution said to have been passed by the Western Baptist Association. The title of the paper's report is "Vote as You Pray."

All Baptists should vote as they pray. Just now the burden of our prayer should be that the world may be made safe for democracy. Lloyd George, premier of Great Britain, as you know, the most distinguished Baptist in the world, wrote Mr. Coleman, president of the Northern Baptist Convention: "Tell the Baptist brotherhood that we are fighting for Baptist principles."

Baptist principles are democratic principles. Democratic principles are to-day in this country in the hands of the Democratic party. A Democratic President is the mouthpiece of that party. His word will close the war and determine matters after the war. Behind him every lover of democratic principles should stand to-day.

I am a prohibitionist, but prohibition is res adjudicata. The Kentucky

Legislature has passed the prohibition amendment. Congress has voted us a dry nation. National prohibition is as dead an issue as slavery or free silver.

The one great issue is the winning of the war and the settlement of the momentous questions arising after the war. Those questions must be settled by the party that always sustains the President.

I believe our brother Gatcliffe voted as he prayed when he voted to nominate Gov. Stanley for Senator. I believe Senator Frost spoke as he prayed when he introduced Gov. Stanley along with Senator Beckham. I believe Hon. H. V. McChesney voted as he prayed when he supported Gov. Stanley for Senator. I know of no more conscientious Baptists in Kentucky. And there are others.

With justice towards none and with charity for all, insisting as we do on Baptist individualism and conscientiousness, I am willing to place myself among those of our brotherhood who believe that this is the time for all men to be sure they are in perfect accord with our President. Gov. Stanley is such a man and the President can rely on him during and after the war.

With all good wishes and high regards fraternally yours for democratic principles in both church and State.

W. W. LANDRUM,
DON SINGLETARY, M. M., Moderator,
Clinton, Ky.

Cadiz Minister Exposes Campaign Canard

My attention has been called to a statement in the Louisville press that all six preachers in our town were opposed to the election of Stanley as Senator. The author of that pronouncement had never consulted me. I am not a Democrat in politics, and am not now interested one hair's breadth in the partisan phases of this campaign. But my sober judgment of the issues involved compel me to favor the election of Mr. Stanley in preference to Mr. Bruner. Certain Baptist Associations in Western Kentucky have seen fit in the exercise of their inalienable right to urge our people to vote against Mr. Stanley, but to that advice I cannot consent.

The Prohibition question is a negligible matter in this campaign. That issue has reached such a stage that no matter which man is elected, his vote will fall on the right side. Mr. Stanley's personal habits—past or present—do not determine on which side his vote will be cast. When nation-wide prohibition comes to a vote, good sense and good politics will put Stanley on the prohibition side. But, were his vote known to be against nation-wide prohibition, I should still emphatically favor his election.

The support of the President in the prosecution of this war is also a secondary matter. Both Mr. Bruner and Mr. Stanley can be depended upon to fight this war through to a finish. In the present fever-heat of American patriotism, it would not be good sense or good politics for a Senator not to do so. Were the patriotic prosecution of this war the issue between these two men, I would not turn my hand over for the difference between them.

The issue in this campaign is greater and more vital than either of the things named. That issue is this: Shall certain definite ideals of social, economic and political justice for the world be realized? For the first time in many years we seem to have a President whose thinking is as clear and thorough as his purpose is positive and unshakable. Thinkers and idealists to whom this era of justice has been a pleasant dream, and who have been somewhat skeptical of all politicians and their promises (even of Wilson at the outset) are now confident that they have as a President a man whose thought moves on as lofty a pitch as theirs, and who also has the political acumen to translate these ideas into legislation. OUT CONFIDENCE IS IN WOODROW WILSON. Let me quote from a recent magazine issue:

"Progressive citizens of whatever party have adopted President Wilson as their leader."

The crucial matter in this campaign is not what Stanley or Bruner will do while the war is on, but what they will do when the war is ended. Either man will fight the war through to a finish—it would be his finish if he did not. But the problem is that one man would follow the leadership of his party chief, and the other would follow the leadership of the President. It is on that "probable" that I FAVOR WHOLEHEARTEDLY THE ELECTION OF STANLEY AS OUR SENATOR. Wilson has the ideas and the ideals; he needs now the chance to put them into law. I am for giving him the MAN HE WANTS so that full responsibility can be thrust on him for any failure, if there is failure.

To my mind these vast and world-significant matters of social justice, of economic right, of political liberty demand with compelling voice that every man who loves his fellow shall vote for Stanley as a Wilson man.

Sincerely, LESLIE L. SANDERS, Pastor First Baptist Church.

During The Spanish-American War,

ROOSEVELT SAID:

"A refusal to sustain the President this year will, in the eyes of Europe, be read as a refusal to sustain the war."

If THEN, Why Not NOW?

BECKHAM BACKS STANLEY.

I have left the most pressing and urgent duties at the National Capital and traveled a thousand miles to bring to you this message that your President and his associates are watching with anxious and intense interest the outcome of this election in Kentucky and are hoping that you will not fail to show your appreciation of the splendid work which has been done by giving a vote of confidence on the November election day and electing to the Senate Gov. A. O. Stanley.

SENATOR J. C. W. BECKHAM.

World Will Consider Election of Republican Congress a Repudiation of Wilson
President Says "A Vote For Bruner Is a Vote Against Me."
Democratic Defeat Would Hamper Nation At Critical Time.

"My Fellow Countrymen:

"The Congressional elections are at hand. They occur in the most critical period our country has ever faced or is likely to face in our time. If you have approved of my leadership and wish me to continue to be your unembarrassed spokesman in affairs at home and abroad, I earnestly beg that you will express yourself unmistakably to that effect by returning a Democratic majority to both the Senate and House of Representatives.

"I am your servant and will accept your judgment without cavil, but my power to administer the great trust assigned me by the constitution would be seriously impaired, should your judgment be adverse, and I must frankly tell you so because so many critical issues depend upon your verdict. No scruple of taste must in grim times like these be allowed to stand in the way of speaking the plain truth.

Divided Leadership.

"I have no thought of suggesting that any political party is

paramount in matters of patriotism. I feel too deeply the sacrifices which have been made in this war by all our citizens irrespective of party affiliations to harbor such an idea. I mean only that the difficulties and delicacies of our present task are of a sort that makes it imperatively necessary that the nation should give its undivided support to the government under a unified leadership and that a Republican Congress would divide the leadership.

Interpretation Abroad.

"The return of a Republican majority to either House of the Congress would, moreover, be interpretative on the other side of the water as a repudiation of my leadership. Spokesmen of the Republican party are urging you to elect a Republican Congress in order to back up and support the President, but even if they should in this impose upon some credulous voters on this side of the water, they would impose on no one on the other side. It is well understood there as well as here that the Republican leaders desire not so much to support the President as to control him.

"The people of the Allied countries with whom we are associated against Germany are quite familiar with the significance of

elections. They would find it very difficult to believe that the voters of the United States had so chosen to support their President by electing to the Congress a majority controlled by those who are in fact not in sympathy with the attitude and action of the administration.

For Sake of Nation.

"I need not tell you, my fellow countrymen, that I am asking your support not for my own sake or for the sake of a political party, but for the sake of the nation itself in order that its inward unity of purpose may be evident to all the world. In ordinary times I would not feel at liberty to make such an appeal to you. In ordinary times divided counsels can be endured without permanent hurt to the country. But these are not ordinary times. If in these critical days it is your wish to sustain me with undivided minds, I beg that you will say so in a way which it will not be possible to misunderstand either at home or among our associates on the other side of the sea. I submit my difficulties and my hopes to you.

"WOODROW WILSON."
